

Use of SLAC Information Resources Acknowledgement

Addendum

PCDS Experiments Shared Accounts

Shared Accounts shall only be created and used to access experimental data for the purpose of copying the data to a home institution or external device. There shall be no processing of data on SLAC information resources utilizing these types of accounts.

The Principal Investigator (PI) who is the custodian of a shared account MUST:

1. Ensure that only legitimate users have access to the shared account
2. Keep a list of who has access to the shared account and be able to produce the list at the request of computer security or delegated authority.
