Attachments: E3230-BSS%20COMPACT%20FA%20SERIES.pdf

Hi Jim

I have revisited the sizing information. I do apologize for I did perform the sizing for 2500lbf instead of 25000.

1. Rails and Ball Screw for 25000lbf, assuming a 2000mm distance between each block on rail.

Qty	P/N	Description	Price (per part)
2	SGL35F2-3000P/W2	NB 3000mm travel, precision slide guide 32KN normal load capability, w/ 2 blocks	1238.44
1	PSS2505N1D1233	NSK, 1 meter travel ball screw with 25mm dia. and 5mm lead.	1420.33

2. Rails and Ball Screw for 1000lbf load, assuming about a 900mm distance between each block on rail.

Qty	P/N	Description	Price (per part)
2	SEB15AUU2-1900P/W2	NB 1900mm travel, precision slide guide 4.74KN normal load capability, w/ 2 blocks	502.86
1	PSS1510N1D1179	NSK, 1 meter travel ball screw with 15mm dia. and 10mm lead	1180.16

Please also find the attached .pdf giving you details about the ball screws along with information about the end support units. There are a few options for the end supports.

Do feel free to contact me if you have any questions.

Subject: RE: Rails & Prime Mover Quote

Corey,

I don't see the load capacity in the range of 25,000 lbf for the rail (ball rail?). For 4 ball carriages that winds up being on the order of 28KN apiece. the needed travel distance is only about 1000mm.

Thanks.

Subject: Rails & Prime Mover Quote

Jim,

My Applications Engineer hopped right to it and came up with this for us...

PSS2505N1D1233

NSK, 1 meter travel ball screw with 25mm dia. and 5mm lead.

\$1420.33 (would need a couple of ballscrew mounts on the ends to hold it so had some money for that, but I'm not sure how much.)

SEB15AUU2-1900P/W2

NB 1900mm travel, precision slide guide 4.74KN normal load capability, w/ 2 blocks

\$352 (multiply by 2 for one system)

SGL20F2-3000P/W2

NB 3000mm travel precision slide guide 11.91KN normal load capability, w/ 2 blocks

\$561 (multiply by 2 for one system)

Linear motor coil and track (no rails or encoder)

The R16-1 is \$1,995.00

Magnet track 240mm long is \$480 (multiply by 4.25 to get the full travel length)

NSK guides are about twice as much in price.

I have a couple different kinds of linear encoders to choose from. They can go

anywhere from \$300 to \$2000 or so depending upon the requirements. I'd probably budget \$1500.

Let me know if you have any more last minute questions that I can try to help you with, Jim.

Subject: XPP granite block rigging estimate

The estimate for moving a 28kip granite block into the NEH from the FEH.

From: Ken Carrion [mailto:kwcarrion@rigginginternational.com]
Sent: Tuesday, February 12, 2008 7:59 AM
To: Defever, Jim
Subject: RE: SLAC estimate

Dear Jim,

Sorry about the delay in getting a budgetary price to you but here it is. The cost will be approximately \$20,000.00 to move and set the granite surface plate. However, it could be less depending on access and jobsite conditions at the time of the move. There is a strong probability that we will have to insert some sort lifting inserts at various locations throughout the roof along the travel route in order to make the sharp turns. As the date for installation draws closer I should be able to firm up this estimate with better look at the site conditions. If you have further questions or need clarifications please contact anytime and again thank-you for your patience.

Sincerely,

Ken Carrion

Hi David,
Thanks for contacting Spectra-Physics.

Below are excerpts from our price list. Please let me know if you have questions or need additional information.

Oscillator:

Millennia PRO 5sJ CW high power ProLite diode-pumped laser, 5 W @ 532 nm, TEM₀₀
\$53,000

Chiller 110WW Standard Neslab (110 volt system) \$2,650

3941-30-M1S < 30 fs Tsunami, Millennia PRO 5s pumping, 800 nm \$65,000

C-Option Complete Lok-to-Clock accessory. Includes all necessary mechanics in the laser head, a PZT-driven mirror for the wavelength range of operation and Model 3930 electronics with built-in 80 MHz reference oscillator. Can only be ordered together with Tsunami \$25,000

Oscillator total: \$145,650

3 mJ, 1 kHz, 35 fs amplifier:

SPFIRE PRO-35F-xKXP High Power (>3W) kilohertz < 35fs Ti:Sapphire regenerative amplifier, including stretcher and compressor and SP-OS-1 optics for 780-820 nm, specify rep rate in kHz (x = 1 or 5) \$140,000

EMPOWER 30-110 High Power, CW Diode pumped, 1-10kHz Nd:YLF intra-cavity doubled, 527nm Q-switched pump laser, 30W @ 5kHz, 110V/60Hz \$96,500

EMP CHILLER 110-WW Chiller for use with Empower lasers, 110 V, 50-60 Hz \$3,000

Total 3 mJ amplifier: \$239,500

5 mJ, 1 kHz, 40 fs amplifier:

SPFIRE PRO-40F-xK5W High Power kilohertz (>5W) < 40fs Ti:Sapphire hybrid regenerative/multipass amplifier, including stretcher and compressor and SP-OS-1 optics for 780-820 nm, specify rep rate in kHz (x = 1 or 5) \$190,000

2xEMPOWER 30-110 High Power, CW Diode pumped, 1-10kHz Nd:YLF intra-cavity doubled, 527nm Q-switched pump laser, 30W @ 5kHz, 110V/60Hz \$193,000

2xEMP CHILLER 110-WW Chiller for use with Empower lasers, 110 V, 50-60 Hz \$6,000

Total 5 mJ amplifier: \$389,000

All the best,
Magnus

Notes:

All commercially reasonable efforts will be applied to achieve 3 mJ or greater with 15 mJ pump at 1 kHz from customer's existing Quantronix Darwin pump laser.

Darwin pump laser to be sent to Spectra-Physics factory to be used during the entire build process of Spitfire Pro XP amplifier. Telescope optics in the Spitfire for mode-matching the pump laser will be adjusted or changed as needed to achieve best performance.

Note:

A PC is required to run the Spitfire Graphical User Interface.

Recommended Diagnostics and Accessories:

P/N: 1122122 Legend Elite-USP-1K-HE The Legend Elite family is a new generation of ultrafast, Ti:sapphire amplifiers that ensures the highest levels of sustainable performance and reliability. The system features · Integrated Evolution pump laser (sold separately) for overall system compactness and stability · Temperature-stabilized regenerative amplifier platform for environmental stability · New high-efficiency cavity design for maximum pulse energy · Enhanced stretcher/compressor elements for optimum pulse width and beam quality. Combined with Coherent's proven, market-leading sub-systems such as Micra, Mira or Vitesse ultrafast oscillators, Verdi CW and Evolution DPSS green pump lasers, or OPerA Solo and TOPAS OPA systems, the Legend Elite guarantees Better Ultrafast, Every Day. The Legend Elite USP-1K-HE is a high energy model that comfortably guarantees the following un-matched performance when pumped by Coherents Evolution-30 diode-pumped, Q-switched laser and seeded by Coherents Micra Ti:sapphire oscillator. Pulse Energy >3mJ Repetition rate 1kHz Pulse Width <35fs Energy Stability <0.75% rms Beam Quality M2 <1.35 (see data sheet for full list of specifications)	1	USD 151,000.00	USD 151,000.00

With the HR-800 specs now...

Date: Fri, 10 Nov 2006 19:04:47 +0100
To: "Fritz, David M." <dmfritz@slac.stanford.edu>
From: Pascal Tournois <pascal.tournois@fastlite.com>
Subject: Re: Dazzler Quotation
Cc: info@fastlite.com

Hello David,

Following to our discussion, please find here after the information you kindly requested:

1] Dazzler

The HR-800 Dazzler list price is as follow:

HR-800/T1: 42 000 Euros

The list price includes delivery, a typical two days training and installation session and a one year warranty.

The specs are here attached.

2] Phazzler

While not yet on our web site, I have attached the data sheet of a brand new product, named the Phazzler, which enables for the implementation of various measurement methods (Spider, Frog, autocorrelation) in a single device, and in a single beam geometry. Moreover, the Phazzler device is tunable over the same wavelength range than the Dazzler system quoted above. Adding the Phazzler to a given experiment allows for a easy and reliable pulse characterization for complex pulse shapes, and this for any wavelengths belonging to the device range.

The Phazzler PH-750-850 (see attached spec) is list priced 68 000 Euros.

The list price also includes delivery, a typical two days training and installation session and a one year warranty.

Thank you again for your interest with respect to our products.

Should you need any additional information, please do not hesitate to contact us.

Best regards,
Pascal Tournois

At 15:04 09/11/2006 -0800, you wrote:

Hello,

I was interested in obtaining a cost estimate for a HR-800 Dazzler system. It would be wonderful if a quotation could be send to me via e-mail. Thank you!

Sincerely,

David Fritz

Rotation Stages

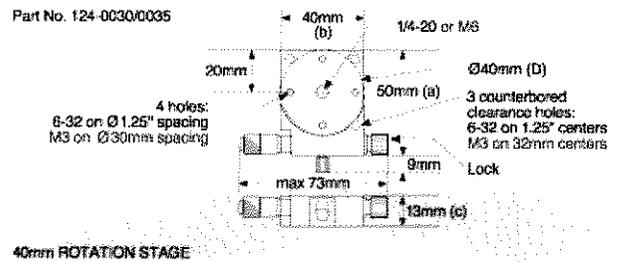

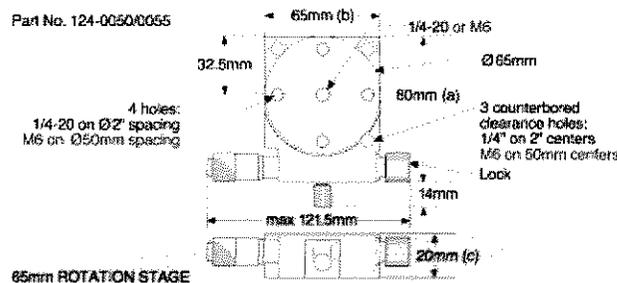

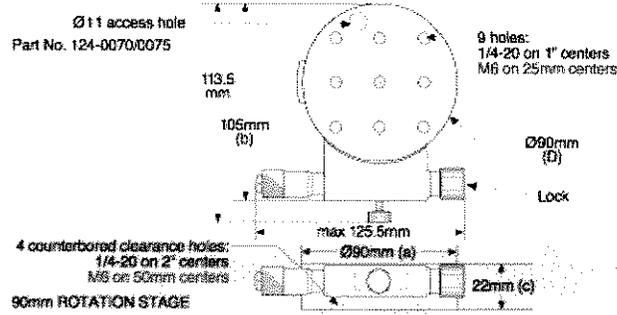

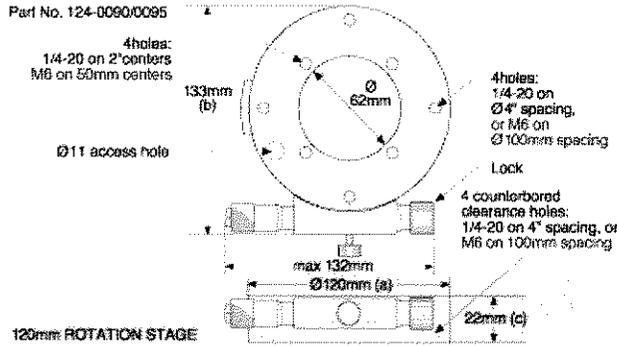

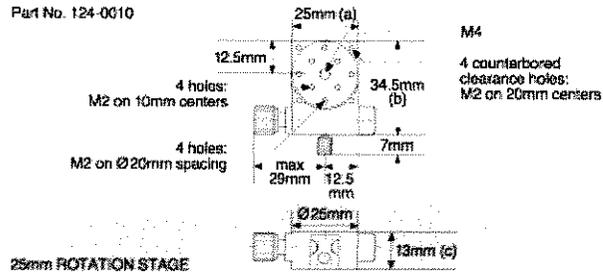

- Continuous 360 degree rotation
- Fine adjustment by micrometer
- Concentricity <50microns
- Compatible with linear translation stages
- Five sizes cover most applications
- Inch and metric mounting

Rotation stages permit the precise angular adjustment of components. These stages use plain brass bearings to provide coarse adjustment over a full 360 degree circle. A scale around the circumference provides an indication of the angle. Once set approximately in place the stage may be locked by means of a clamp screw and then fine adjusted by a micrometer (fine pitch screw is used for the 25mm stage). The sizes of these stages are such that they may be mounted together with translation stages to form compound motion devices. The largest stage we offer has a diameter of 160mm and a 102mm central aperture. The 120mm stage has a 62mm central aperture so it can be mounted with an optical beam passing through its center. The 90mm stage will accept a 65mm linear stage and the 65mm rotation stage can be mounted on top of a 65mm translation stage. The 40mm stage is ideal for OEM applications. The 25mm stage works well with the mini-system. The 160, 120 and 90mm stages utilize crossed roller bearings for high load capacity.

Specifications & Tolerances

Dimensions: +0.2mm
 Material: Brass
 Concentricity: <0.05mm
 Finish: Black chrome
 Parallelism: <0.05mm

Swamp Optics Price List

All FROGs and GRENOUILLEs now use USB cameras and allow free-running and triggered-single-shot measurements. No power supply is needed.

FROG Model 8-9-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 700-1100 nm pulses $\sim 10\text{-}\sim 100$ fs long @ 800 nm US\$22,000

GRENOUILLE Model 8-20-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 700-1100 nm pulses $\sim 18\text{-}\sim 180$ fs long @ 800 nm US\$19,000

GRENOUILLE Model 8-50-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 700-1100 nm pulses $\sim 50\text{-}\sim 500$ fs long @ 800 nm US\$19,000

GRENOUILLE Model 8-300-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 700-1100 nm pulses ~ 300 fs- ~ 2 ps long @ 800 nm US\$22,000

FROG Model 8-500-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 700-900 nm pulses ~ 500 fs- ~ 5 ps long @ 800 nm US\$22,000

GRENOUILLE Model 10-100-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 900-1100 nm pulses ~ 100 fs- ~ 1 ps long @ 1050 nm US\$19,000

FROG Model 10-500-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 900-1100 nm pulses ~ 500 fs- ~ 5 ps long @ 800 nm US\$22,000

GRENOUILLE Model 15-40-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 1320-1620 nm pulses ~ 40 fs- ~ 400 fs long @ 1550 nm US\$21,000

GRENOUILLE Model 15-100-USB Ultrashort-pulse spatio-temporal measurement device.
Measures 1320-1620 nm pulses ~ 100 fs- ~ 1 ps long @ 1550 nm .. US\$21,000

Software for retrieving pulses

Mesa Photonics' VideoFROG real-time pulse-retrieval
and spatial-profile software US\$2,500

Femtosoft Technology's QuickFROG real-time pulse-retrieval
and spatial-profile software US\$2,500

Note that these devices usually measure somewhat shorter pulses at their longest wavelengths and somewhat longer pulses at their shortest wavelengths. Refer to the brochure/spec sheet for specific values on www.swampoptics.com
When ordering, customer to supply a shipping account number (FedEx or UPS, but not DHL) for shipping and handling; FOB Origin. Delivery is 2-4 weeks upon receipt of a Purchase Order FAXed to 866-855-4518.

OTHER SHOPPING CART OPTIONS

[Process Your Shopping Cart as a Quote](#)

This option will process your order as a quote and send it to the appropriate office. A sales representative will contact you to convert this to an order. To convert an existing quote, please go to the "My accounts" area and choose review orders from the menu, or call a thorlabs Sales representative at any time. (1-973-300-3000)

[Save Your Shopping Cart](#)

This option allows you to save the contents of your shopping cart for future reference. To use this feature, a Thorlabs.com web account is required ([click here](#) if you do not have an account).

[Forward Your Shopping Cart](#)

This option allows you to forward the contents of your shopping cart to another person. Upon choosing this option, the contents of your shopping cart will be temporarily stored, and an electronic message with a retrieval link will be sent to the recipient specified, thereby enabling him or her to view the cart.

NOTE: This will remove the items from your Shopping Cart.

SHOPPING SUPPORT INFORMATION

Shopping Cart pricing reflects the most recent pricing for that item.

Items remain in your basket for 24 hours. Make sure that you are logged on if you cannot view your basket contents.

Fritz, David M.

From: Del Mar Photonics [sergey@dmphotonics.com]
Sent: Tuesday, November 14, 2006 9:05 PM
To: Fritz, David M.
Subject: Re: Rincon SS single shot cross-correlator

Hi David,

List price for our single shot cross correlator is \$42,000.- Cross-correlator Rincon-SS
Wavelength, nm 700-1500
Dynamic range 108 (window 104)
Temporal range, ps 950

Rincon-SS works in single-shot mode with time windows providing quick measurements of cross-correlation function.

Can you describe briefly your laser system and requirements? Some custom work can be necessary but that doesn't necessarily means that the price will increase.

If the above specifications and price look acceptable I will send you a formal quote. We can discuss both custom specifications as well as price adjustment for standard model.

Best regards,
Sergey Egorov

Item Code	Description	Retail Price
PX-2-FIRMWARE	USB2000 programmed for use with PX-2	\$0.00
QBIF200-MIXED	200um Premium Bifurcated Fiber, MIXED, 2m (BTO)	\$314.00
QBIF200-UV/VIS	200um Premium Bifurcated Fiber, UV/VIS, 2m (BTO)	\$314.00
QBIF200-VIS/BX	200um Premium Bifurcated Fiber, VIS/NIR, 2m, BX Jacket (BTO)	\$314.00
QBIF200-VIS/NIR	200um Premium Bifurcated Fiber, VIS/NIR, 2m (BTO)	\$314.00
QBIF400-MIXED	400um Premium Bifurcated Fiber, MIXED, 2m (BTO)	\$346.00
QBIF400-UV/VIS	400um Premium Bifurcated Fiber, UV/VIS, 2m (BTO)	\$346.00
QBIF400-VIS/BX	600um Premium Bif. Fiber, VIS/NIR, 2 m, BX Jacket (BTO)	\$346.00
QBIF400-VIS/NIR	400um Premium Bifurcated Fiber, VIS/NIR, 2m (BTO)	\$346.00
QBIF50-UV/VIS	50um Premium Bifurcated Fiber, UV/VIS, 2m (BTO)	\$314.00
QBIF50-VIS/NIR	50um Premium Bifurcated Fiber, VIS/NIR, 2m (BTO)	\$314.00
QBIF600-UV/BX	600um Premium Bif. Fiber, UV/VIS, 2 m, BX Jacket (BTO)	\$388.00
QBIF600-UV/VIS	600um Premium Bifurcated Fiber, UV/VIS, 2m (BTO)	\$388.00
QBIF600-VIS/BX	600um Premium Bif. Fiber, VIS/NIR, 2m, BX Jacket (BTO)	\$388.00
QBIF600-VIS/NIR	600um Premium Bifurcated Fiber, VIS/NIR, 2m (KB)	\$388.00
QBOX	Plastic storage case for optical fiber	\$8.00
QCL-UV	AR-Coated Collimating Lens for CUV-QPOD products	\$390.00
QD-CS-1V	Vial of Core Shell EviDots: specify wavele	\$449.00
QD-CS-VIS	Pick 6 Vials Core Shell: 490, 520, 540, 560,580, 600 or 620	\$699.00
QD-T2-MP-1V	Vial of Carboxyl EviTags: specify wavelength	\$399.00
QD-T2-MP-A-1V	Vial of Amine EviTags: specify wavelength	\$399.00
QE65000	QE65000 Spectrometer w/scientific-grade detector	\$10,499.00
QFH	Filter Holder, 12.5mm Diameter Filters, for CUV-QPOD product	\$199.00
QIL-UV	AR-Coated Imaging Lens Doublet for CUV-QPOD products	\$587.00
QMP	Spherical Mirror Plug for CUV-QPOD products	\$270.00
QP1000-2-UV/BX	1000um Premium Fiber, UV/VIS, 2m, BX Jacket (KB)	\$377.00
QP1000-2-UV/VIS	1000um Premium Fiber, UV/VIS, 2m (KB)	\$377.00
QP1000-2-VIS/BX	1000um Premium Fiber, VIS/NIR, 2m, BX Jacket (BTO)	\$377.00
QP1000-2-VIS/NIR	1000um Premium Fiber, VIS/NIR, 2m (KB)	\$377.00
QP100-2-UV/BX	100um Premium Fiber, UV/VIS, 2m, BX Jacket (BTO)	\$157.00
QP100-2-UV/VIS	100um Premium Fiber, UV/VIS, 2m (KB)	\$158.00
QP100-2-VIS/BX	100um Premium Fiber, VIS/NIR, 2m, BX Jacket (BTO)	\$157.00
QP100-2-VIS/NIR	100um Premium Fiber, VIS/NIR, 2m (KB)	\$158.00
QP115-025-XSR	115um Premium Fiber, XSR, 25cm (BTO)	\$125.00
QP115-1-XSR	115um fiber, XSR, 1m (BTO)	\$157.00
QP115-2-XSR	115um fiber, extreme solarization-resistant, 2m (BTO)	\$188.00
QP200-2-SR/BX	200um Premium Fiber, SR, 2m, BX Jacket (KB)	\$188.00
QP200-2-UV/BX	200um Premium Fiber, UV/VIS, 2m BX Jacket (KB)	\$157.00
QP200-2-UV/VIS	200um Premium Fiber, UV/VIS, 2m (KB)	\$158.00
QP200-2-VIS/BX	200um Premium Fiber, VIS/NIR, 2m, BX Jacket (KB)	\$157.00
QP200-2-VIS/NIR	200um Premium Fiber, VIS/NIR, 2m (KB)	\$158.00
QP230-0.25-XSR	235um Fiber, extreme solarization-resistant, 25cm (BTO)	\$157.00
QP230-1-XSR	235um Fiber, extreme solarization-resistant, 1m (BTO)	\$188.00
QP230-2-XSR	235um Fiber, extreme solarization-resistant, 2m (KB)	\$209.00
QP300-1-SR	300um Premium Fiber, solarization-resistant, 1m (BTO)	\$158.00
QP300-1-SR/BX	300um Premium Fiber, solarization-resistant, 1m (BTO)	\$158.00
QP400-025-SR	400um Premium Fiber, solarization-resistant, 25cm (KB)	\$125.00
QP400-025-SR/BX	400um Premium , solarization-resistant, 25cm, BX Jacket (BTO)	\$125.00

U.S.A. Price List - October 2007

FFT Spectrum Analyzers

SR760	Single-channel FFT spectrum analyzer	\$4950
SR770	Single-channel FFT spectrum analyzer (w/ source)	\$6500
O760H	Carrying handle for SR760 and SR770	\$100
O760RM	Rack mount kit for SR760 and SR770	\$85
SR780	Dual-channel dynamic signal analyzer	\$9950
SR785	Dual-channel dynamic signal analyzer	\$11950
O780M1	8 MSample memory for SR780 and SR785	\$800
O780RM	Rack mount kit for SR780 and SR785	\$85
CT100	SRS instrument cart	\$850

Synthesized Function Generators

DS335	3 MHz function generator	\$1095
01	GPIB and RS-232 interfaces	\$495
02	2 ppm TCXO timebase	\$350
DS340	15 MHz function/arb generator	\$1295
01	GPIB & RS-232 interfaces, arb. software	\$495
02	2 ppm TCXO timebase	\$350
DS345	30 MHz function/arb generator	\$1595
01	GPIB & RS-232 interfaces, arb. software	\$495
02	10 ppb high stability OCXO timebase	\$650
O345RMD	Double rack mount kit for DS3XX	\$85
O345RMS	Single rack mount kit for DS3XX	\$85
DS360	Ultra-low distortion function generator	\$2795
01	Digital audio output	\$995
J360RM	Rack mount kit	\$85

Synthesized Clock Generator

CG635	Synthesized clock generator	\$2490
01	PRBS w/ comp. LVDS on SMA	\$550
02	OCXO timebase	\$650
03	Rubidium timebase	\$1650
CG640	CMOS (+5 Vcc) to 100 MHz receiver	\$250
CG641	CMOS (+3.3 Vcc) to 500 MHz receiver	\$250
CG642	CMOS (+2.5 Vcc) to 500 MHz receiver	\$250
CG643	PECL (+5 Vcc) to 2050 MHz receiver	\$250
CG644	PECL (+3.3 Vcc) to 2050 MHz receiver	\$250
CG645	PECL (+2.5 Vcc) to 2050 MHz receiver	\$250
CG646	RF (+7 dBm) to 2050 MHz receiver	\$250
CG647	CML/NIM to 2050 MHz receiver	\$250
CG648	ECL to 2050 MHz receiver	\$250
CG649	LVDS to 2050 MHz receiver	\$250
O635RMD	Double rack mount kit	\$85
O635RMS	Single rack mount kit	\$85

LCR Meters

SR715	10 kHz LCR meter (with RS-232)	\$995
SR720	100 kHz meter w/ RS-232, GPIB & Handler interface	\$1495
SR726	Kelvin clips	\$300
SR727	Surface mount tweezers	\$300
O727RT	2 pairs of replacement tips for SR727	\$45
SR728	Four-wire BNC adapter	\$200
O715RAA	Replacement axial adapters (2 pair)	\$35
O715RRF	Replacement radial fixture	\$75

Time Interval and Frequency Counters

SR620	Time interval/frequency counter (w/ rack mount)	\$4950
01	2 ppb high stability OCXO timebase	\$950
625	SR620 w/ rubidium timebase (w/ rack mount)	\$12500

Frequency Standards / Oscillators

FS725	Benchtop rubidium frequency standard	\$2495
01	Distribution amplifier - 6 additional outputs	\$300
02	Distribution amplifier - 12 additional outputs	\$600
03	Distribution amplifier - 18 additional outputs	\$900
O725RMD	Double rack mount kit for FS725	\$85
O725RMS	Single rack mount kit for FS725	\$85
PRS10	10 MHz rubidium oscillator	\$1495
PRBB	Breakout connector board	\$150
PRPS	24 VDC switching power supply	\$150
PRHS	Benchtop heat sink	\$50
PRMC	D-type mating connector	\$20
SC10	10 MHz ovenized oscillator (base price, qty. 100)	\$250
FS700	LORAN-C freq. std. (with GPIB & rack mount)	\$2950
01	Low phase noise oscillator	\$450
02	RS-232 computer interface	\$350
O700ANT	Replacement antenna	\$250
O700LNG	Lightning protection module	\$100
FS710	10 MHz AGC distribution amplifier (7 channel)	\$1000

Thermocouple Monitor

SR630	16-channel thermocouple monitor	\$1495
O630KF1	K-type thermocouples, 5 ft., fiberglass, qty. 5	\$50
O630KF2	K-type thermocouples, 10 ft., fiberglass, qty. 5	\$75
O630KT1	K-type thermocouples, 5 ft., teflon, qty. 5	\$50
O630KT2	K-type thermocouples, 10 ft., teflon, qty. 5	\$75
O630RMD	Double rack mount kit	\$85
O630RMS	Single rack mount kit	\$85

Dual Channel Programmable Filters

SR640	Two-channel low pass filter (w/ rack mount)	\$3295
SR645	Two-channel high pass filter (w/ rack mount)	\$3295
SR650	One high, one low pass filter (w/ rack mount)	\$3295
01	High current output for SR6XX filters	\$150

Digital Delay / Pulse Generator

DG535	Digital delay / pulse generator (with GPIB)	\$3995
02	+/-32 volt rear panel outputs	\$650
03	1 ppm TCXO timebase	\$350
06	Trigger inhibit input	\$250
O4A	100 ps rise time module	\$250
O4B	100 ps fall time module	\$250
O4C	Bias Tee (used with opt. 02 & O4A or O4B)	\$100
05	Dual rack mount tray	\$150

Lock-In Amplifiers

SR510	Single phase lock-in (w/ RS-232 & rack mount)	\$2495
SR530	Dual phase lock-in (w/ RS-232 & rack mount)	\$2995
01	GPIB computer interface	\$895
SR810	DSP single phase lock-in (with rack mount)	\$3850
SR830	DSP dual phase lock-in (with rack mount)	\$4500
SR844	200 MHz lock-in (with rack mount)	\$8450
SR850	DSP dual phase lock-in (with rack mount)	\$7500
O850H	Carrying handle kit	\$100

Subject: Answers to Huber Quote Questions

J.,

I just spoke with David Rognlie of Blake industries in Scotch Plains, NJ. The items in my spreadsheet are needed for each Circle, the only exception is the interpolation unit which is an option & will give approx. 10x the readout resolution if incorporated.

The "XE" higher resolution option in the new catalogue is a new feature and very few have been ordered to date, the "X3" tending to still be the most popular on recent orders. Specifying the "XE" may add about 30% to the cost according to David.

Each Circle will need a "Display for Encoder" per David.

The encoder precision is indeed greater, but there doesn't seem to be a lesser resolution option available.

To reiterate, the "interpolation unit" is optional.

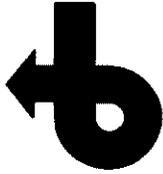

Controller units are not included in estimate & David was not sure to what degree we might be "microstepping", if at all.

Dave Nelson in SLAC controls group may be a good resource for us on how the controllers will be set-up for the Diffractometer. - JTD

Budgetary Proposal

Robotic Detector Positioning System

Prepared for

**The Linac Coherent Light Source
LCLS Ultrafast Science Instruments (LUSI)**

Submitted by

**Square One Systems Design, Inc.
Proposal Number SQR-1B00487**

February 15, 2007

1. Proposal Overview

The following proposal is in response to the LCLS's request for budgetary information covering the design, fabrication, test, delivery and commissioning of a Robotic Detector Positioning System for the one of the LCLS Ultrafast Science Instruments.

Square One Systems Design, Inc. (Square One) proposes to act as the general contractor for this project. From its base in Jackson, Wyoming, Square One will oversee all phases of component fabrication, system assembly and system testing and will be responsible for all project requirements.

Square One has an experienced engineering staff and advanced R&D facilities that make us uniquely well suited to execute the Robotic Detector Positioning System project. Square One has developed a variety of complex robotic workcells, including high-capacity positioning systems, destined for use in high energy particle accelerators. Our facility has over 2,400 square feet of workspace. We maintain a dedicated assembly area with the material handling infrastructure necessary for large systems. Dimensional and functional testing can be performed on premises. We follow a rigorous quality control policy to ensure that all of our projects meet our customers' requirements. Our record of completing projects on time and of meeting or exceeding our customers' expectations remains the cornerstone of Square One's continued growth and success.

2. System Description

2.1 Robotic Detector Positioning System

The detectors used to collect data in x-ray and neutron diffraction experiments have traditionally been positioned by means of custom-built goniometers. These mechanisms are designed to position the face of a detector at any point on the surface of a section of a sphere that is centered on a sample. Some of these mechanisms also incorporate a translational degree of freedom allowing the distance of the detector face from the sample to be adjusted. While sturdy and reliable, these goniometers are generally very large and the size of the work envelope within which they can position the detector is often less than ideal. Consequently, new methods for positioning detectors are desired.

Commercial, six axis articulated arm robots are capable of locating objects at any point within their work envelope with a very high degree of precision. Further, they are able to orient these objects in all three rotational degrees-of-freedom. Square One proposes using a high-capacity floor mounted robot (Staubli RX160L) to position a detector relative to the sample under test in LUSI. The advantages of this method are an increase in area within which the detector can be positioned, complete flexibility in the stand-off distance of the detector from the sample,

shorter time required to reposition the detector and a reduced mechanism footprint.

The following specifications shall apply:

Requirement	Specification
Solicitation Number	TBD
Part	X-Ray Detector
Weight	10 kg
Maximum Stand-off	1.5 m
Installation Site	LCLS, Stanford Linear Accelerator Center, Menlo Park, CA

Square One proposes a turn-key effort during which our team will take full responsibility for the creation of a completely "mission ready" robotic workcell. Square One will develop the positioning robot and the necessary support hardware. Square One will also supply lock-out industrial safeguards that will reliably segregate the robot from LUSI personnel that may be working in the robot's vicinity. Square One will develop an intuitive graphical user interface that will tie the robot's function into the overall controls architecture of the experiment. Finally, Square One will install and commission the Robotic Detector Positioning System at the LCLS.

3. Price and Delivery

3.1 Budgetary Price

Item	Quantities	Unit Price	Total Price
Robotic Detector Positioning System	1	\$ 170,000	\$ 170,000

- All Prices are in U.S. Dollars
- F.O.B. Destination: LCLS, Stanford Linear Accelerator Center, Menlo Park, CA
- Shipping Point: Square One, Jackson, Wyoming

3.2 Delivery

Square One estimates that delivery of the finished Robotic Detector Positioning System to the LCLS will be **26 Weeks** from the date of the receipt of a purchase order.

4. Milestone Payments

4.1 Payment Schedule

- 20% upon award of contract
- 40% upon acceptance of Final Manufacturing Plan
- 20% upon system acceptance at Square One's Jackson facility
- 20% upon final system acceptance at the LCLS

All invoices are payable net 30 days.

4.2 Manufacturing Plan Acceptance

Square One will develop a Final Manufacturing Plan and hold a formal Design Review approximately eight weeks into the project. Successful completion of this Design Review will initiate parts fabrication and purchasing. This Design Review will also serve as the project's second payment milestone

4.3 Final System Testing

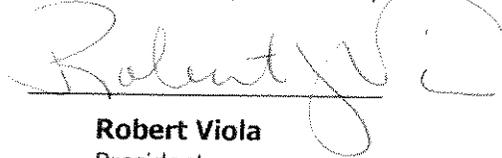

Square One will demonstrate the ability of the Robotic Detector Positioning System to meet all of performance requirements at its Jackson facility approximately 24 weeks into the project. Successful completion of these tests will serve as the project's third payment milestone.

4.4 Final Acceptance

Upon successful completion of the installation and commissioning of the Robotic Detector Positioning System at the LCLS, the project will be considered completed. Delivery, installation and acceptance will serve as the project's fourth and final payment milestone.

Access Floor Kit

We offer a complete kit to provide you with an access floor ready to install.

This Kit includes:

- Panels with High Pressure Laminate, Color Grey Starlite with black trim
- Bolted Steel Understructure (includes pedestals, stringers, and screws)
- Pedestal Adhesive for securing the pedestals to the concrete slab
- One suction cup knuckle panel lifter to lift the panels once they are installed for underfloor access
- Written and online installation instructions

These budgetary numbers are average prices based on installation or material sales in the continental United States. Floor prices are based on a high pressure laminate finish with a bolted understructure system, with a finished floor height of 12". No perforated panels, cable cutouts, ramps, steps or handrails are included in these budgetary numbers. Freight charges are in addition to material sales budget. If you do not know what type of floor that you need, simply visit our [QUICK SELECTOR Program](#). In seconds, based on the information you provide to the program, you will have a good idea of the type of floor system to use. You will also be guided back to this page.

General office applications are always cheaper than these equations. See below for special sections:

of Square Feet = 600

Type of Floor	Materials Only
Woodcore Panel Floor System	
Woodcore standard product	\$ 8994.00
All Steel Panel Floor System	
All Steel standard product	\$ 8994.00
All Steel other colors	\$ 11394.00
All Steel, Concrete Filled Panel System	
ConCore ConCore standard product	\$ 10194.00
General Office Access Floors*	
ConCore standard product	\$ 4500.00

*Raised Floor Systems for general office applications are cheaper than standard computer flooring. The budget numbers above reflect no surface covering with a posilock understructure system. There will be no grid. This is for a low finished floor height (no more than 6 inches) with no surface covering.

All Aluminum Panel System

Floating Floors All Aluminum System (standard product) \$ 14994.00

Used Flooring

Previously used raised floor systems (light duty to moderate loads) \$ 4800.00

Installation**

Installation Costs \$ 3000.00

**Installation varies widely based on location, total square footage, project conditions, etc. As a rule of thumb we would allow approximately \$5.00 per square foot. Ramps, Steps, Handrails and Carpet all are extra charges.

If you are shopping for a new floor and need a quote, simply visit our [Quick Quote](#) and you will get an instant online quote in writing...complete with shipping to your facility. Our kits provide you with everything you need to install an access floor system.

We are looking forward to working with you.

BROOKHAVEN NATIONAL LABORATORY, UPTON, NY

Item	Qty	Part #	Product Description	Unit Price	Discount	Extended Price
------	-----	--------	---------------------	------------	----------	----------------

The below offer is based upon direct purchase of equipment from Varian Vacuum Technologies.

Section 1

1.01	1	VSPR021	LD,VS Port,DS42,120V	21,700.00	14.00 %	18,662.00
------	---	---------	----------------------	-----------	---------	-----------

The VS PR02 is a portable Helium Mass Spectrometer Leak Detector with a fully integrated DS 42 rotary vane primary pump. This powerful instrument is extremely easy to use, without sacrificing valuable functionality. Its features include:

- Totally automatic start-up and tuning/calibration routine
- Touch screen with intuitive menu structure make it is easy to navigate
- High clarity, wide angle, TFT color display provides excellent visibility
- High Test Port Pressure allows short cycle times, and detection of large leaks
- High Sensitivity (5 x 10-12 MDL) meets the most stringent test requirements
- High Helium Pumping Speed ensures fast response and clean-up
- New spectrometer optimizes sensitivity and mass separation
- Multiple language and units capability facilitates worldwide use
- Compact, lightweight design enables easy transporting of instrument
- Automatic test cycle sequencing with selectable roughing and test times
- 3 leak rate set points, 1 pressure set point, and 1 audible leak rate alarm
- Set points w/ selectable greater than or less than settings
- Turbo High Vacuum Pump is totally maintenance free.
- Protection from air inrushes caused by power failures and possible operator errors.
- Split Flow function allows accurate testing of vacuum process systems
- Useful for sniffing and/or vacuum applications, to measure or locate leaks
- The VS PR02 leak detector is delivered with one-year warranty
- Start-up training provided by your Varian Sales Engineer
- A variety of support contracts, completed by Varian Service Engineers, are available. Please ask you sales engineer for more information. Varian has the most direct, factory trained Field Sales Engineers and Field Service Engineers in the industry.

Technical Specifications

Primary pump DS 42, 2 m3/hr (34 l/m)
 Minimum Detectable Leak 5 x 10 -12 mbar l/s, atm cc/sec, 5 x 10-13 Pa m3/sec
 Maximum Test Pressure 13 mbar, 10 Torr, 1330 Pa
 He Pumping Speed (fine test) 1.8 l/s
 Calibration routine Automated or Manual, to Internal or External leak
 Background suppression Push-button initiated Auto Zero, and Auto Zero < Zero
 User Interface High Clarity, Color Display, TFT Touch Screen
 Selectable languages English, French, German, Japanese, Korean, Mandarin, Spanish
 Automated Cyclin Programmable Rough Time, Test Time, Reject Set points
 Set Points 5 Set points, N/O or N/C; 3 Leak Rate, 1 Pressure, 1 Audio
 Response time <0.5 sec
 Communications Interface RS 232 isolated@ 9600 baud (DB-9)
 Conformance Standards UL/CSA, CE
 Weight 38 kg (83 lbs)

This Quotation is exclusively subject to Varian Inc. Terms and Conditions of Sales attached.

Series 108 UHV gate valve

Order-No. 10840-UE44

Inside diameter (ID) :	100 (4") mm/inch
Flange :	CF-F fixed flange UNF threads (compatible with ISO 3669 Fig.2)
Body material :	Stainless steel
Actuator :	Pneumatic actuator with position indicator with solenoid valve double acting
Solenoid :	Yes
Position indicator :	Yes
Feedthrough :	Bellows
Sealing technology :	VATLOCK-System
Sealing materials :	Bonnet: Metal / Gate: Viton®
Pressure range :	1•10 ⁻¹⁰ mbar - 1.6 bar (abs)
Molecular flow conductance :	1700 ls ⁻¹
Max. differential pressure closed position :	1.6 bar
Max. pressure on seat side during opening :	0.03 bar
Compressed air pressure min. - max. overpressure :	4 - 7 bar 58 - 102 psi
Volume of air cylinder :	0.11 l / 0.00388465 ft ³
Closing or opening time :	1.2s
Max. temperature :	Valve body 200°C Actuator 200°C Position indicator 80°C Solenoid °C
Weight :	12 kg / 26.46 lbs

DM300MS - Dycor Dymaxion Mass Spectrometer:

\$16,200.00

Complete with Dymaxion Electronics Unit and 1-300 AMU range Analyzer head, with Open Ion Source, Faraday Cup and Channel Plate Electron Multiplier detectors, and 24VDC power supply. Also includes System 2000 Single Sensor software for Windows 95 through XP

* The Dymaxion Electronics Unit consists of a Smart Sensor electronic box, that mounts directly onto the sensor head. Two RS-485 ports allow the analyzer to be linked directly to a PC host running the Dycor System 2000 software for Windows 95 through XP, or multiple units looped together. An RS-232 port is also provided, which may be used to interface with any other PC or laptop for local monitoring or control

* **PC not included with system.** PC supplied by customer must include the following minimum features: IBM compatible Pentium-class processor, 133 MHz computer, 16MB RAM with Windows 95 through XP capabilities

TOTAL, F.O.B. PITTSBURGH, PA

\$16,200.00

Delivery: 6 - 8 weeks A.R.O. Terms: Net 30, with credit approval FOB/Shipping Point: Pittsburgh, PA Validity of Quotation: 60 days

EXPORT CONTROL CLAUSE:

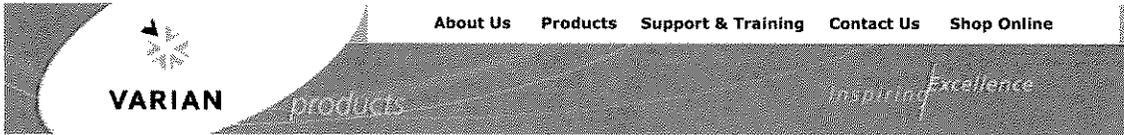

As required by U.S. Export Law, these products must not be destined for facilities or activities involving nuclear, chemical or biological weapons, or related missile delivery systems, in named countries or regions.

THIS QUOTATION IS SUBJECT TO ALL TERMS AND CONDITIONS SHOWN ABOVE AND ON REVERSE SIDE OF THIS SHEET.

VS Series Automatic Portable Leak Detectors

Technical Specifications

Model names and types of primary pump

PR02 (portable)	DS-42 intrnl. rotary-vane pump
MR15 (mobile)	DS-302 rotary-vane pump
MD30 (mobile)	TS-620 dry scroll pump
BR15 (bench-mounted)	DS-302 rotary-vane pump
BD30 (bench-mounted)	TS-620 dry scroll pump

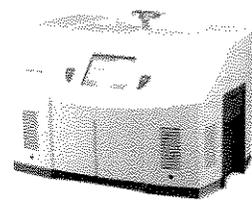

Minimum detectable leak at 1000 ppm ambient helium

atm-cc/sec helium	5×10^{-12}
mbar-liters/sec helium	5×10^{-12}
Pa-m ³ /sec helium	5×10^{-13}

Maximum test-port pressure	10 torr/13 mbar/1330 Pa
Helium pumping speed	1.8 l/sec at test port in fine test
Calibration routine	Automated or manual
Background helium suppression	Pushbutton-initiated auto zero and auto zero<zero
User interface	High-clarity color touch screen
Selectable languages	English, French, German, Japanese, Korean, Mandarin, Spanish
Programmable functions for auto cycling	Roughing time, test time, reject set points
Response time	<0.5 seconds
Set points (standard)	3 for leak rate, 1 for pressure, 1 for audio
Communications interface	RS-232 at 9600 baud (DB-9S connector)
Conformance standards	UL/CSA, CE

Four-Way Crosses

Features

- UHV rated to 1×10^{-13}
- High temperature rated to 450°C
- OFE Copper or optional Viton® elastomer gaskets
- Clearance bolt holes
- Conflat® compatible design
- Standard matte finish
- Each axis has one rotatable flange
- Body type dependent on tube size

Specifications	
Material	
Flanges	304ss
Gaskets	OFE copper
Bolts	300ss and 300ss silver plated
Fastening	
Bolt Type	Hexagonal, 12-point or socket head
Nut Type	Hexagonal or two hole plate nuts
Size / Torque	See individual flange specs.
Vacuum Range	1×10^{-13}
Leak Test	2×10^{-10} cc/sec of He
Temperature Range	-200°C to 450°C

- Rotatable and nonrotatable geometrics
- OFE Copper or optional Viton® elastomer gaskets
- Tapped or clearance bolt holes
- Conflat® compatible design

Figure 1

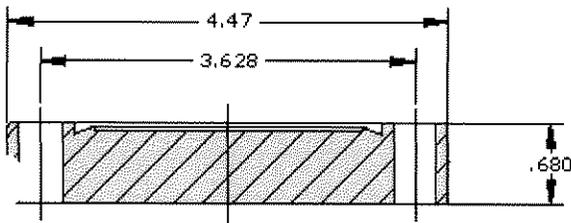

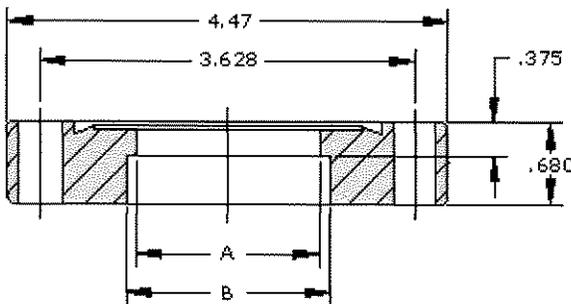

Figure 2

Specifications	
Material	
Flanges	304ss
Gaskets	OFE copper
Bolts	300ss and 300ss silver plated
Fastening	
Bolt Type	Hexagonal or 12-point head
Nut Type	Hexagonal or two hole plate nuts
Size	0.312-24 UNF
Torque	15 lb-ft
Vacuum Range	1×10^{-13}
Temperature Range	-200°C to 450°C
Dimensions	4.47 OD x 2.510 ID maximum

Flanges & Fittings Del Seal CF Flanges - 6 Inch OD

Introduction Nonrotatable Rotatable

Nonrotatable

Features

- UHV rated to 1×10^{-13}
- High temperature rated to 450°C
- Rotatable and nonrotatable geometrics
- OFE Copper or optional Viton® elastomer gaskets
- Tapped or clearance bolt holes
- Conflat® compatible design

	Drift Tube Support Assy	Similar to SA-341-401-30					5	\$ 400.00	\$2.00K	MFD Fab records			MFD		
	Welded Steel Frame (drift tube-to-floor)	Similar to SA-380-737-39					5	\$ 400.00	\$2.00K	MFD Fab records			MFD		
	Miscellaneous + support plate						5	\$ 100.00	\$0.50K	MFD Fab records					

NOTES: (UNLESS OTHERWISE SPECIFIED)

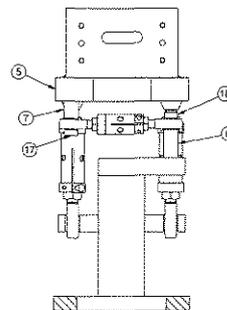

- DIMENSIONS ARE FOR INITIAL SETUP OF ASSEMBLY.
- BAG ALL UNUSED HARDWARE AND TAG WITH HARDWARE TYPE, ATTACHED UNUSED BAGGED HARDWARE TO THE ASSEMBLY FOR USE ON NEXT LEVEL OF ASSEMBLY.
- STAMP, STENCIL OR OTHERWISE INDELIBLY MARK THE ASSEMBLY NUMBER IN LOCATION SHOWN USING 25 INCH CHARACTERS.
- THIS ASSEMBLY IS SIMILAR TO SA-380-724-09.
