

SSRL/SMB Computer Account Request Form
June 2007

Fill in this form and sign the security statement mentioned at the bottom of this page to obtain an account on the Structural Molecular Biology Group computers at SSRL.

Name _____

Institution _____

Mailing Address _____

Email Address _____

Telephone _____

Name of supervisor or advisor, or other person with whom we can make contact should there be any question about the use of the account.

Your Username will normally be your last name, modified by your first initial if that account name is already in use.

Initial password desired. (must be changed at your first login). _____

The password must be exactly 8 characters in length, must be a combination of alpha numeric and special characters and can not be too obviously derived from a dictionary word.

Note: The encrypted passwords are routinely scanned with commonly available cracking tools. Accounts with weak passwords will be locked without notice.

Will you be associated with SSRL for 3 years or more?

If not, how long will you need your account? _____ months

Signature: _____ Date: _____

You must also read and sign the "Use of SLAC Information Resources" document at:
- <http://www2.slac.stanford.edu/comp/slacwide/account/declare.html> -
before we can establish an account.
