Teaching Notes:

- *In A1, the 2s turn the two dancers to their right: their 1st corner and R neighbor.*
- *In A2, the 2s hey with these same two dancers.*
- *Heys need to be tight so that all can complete heys in time to join the lines of 3.*
- *At the end of B1, L file #2 and #1 pick up their partners and keep moving up through the top couple.*
- *At the end of B2, partners have time to acknowledge each other before turning single.*

Anna writes: *One of my pandemic activities has been finding new-to-me woods paths and other tucked-away walks to go on in Brattleboro, so the gist of the title's meaning is "same town, new map."* Coincidentally, Margaret & Jeff also spent many months exploring the trails of Eastern Long Island over the past two years, so the title "New Map" speaks to us as well.
