

THE PUGILIST

to the tune Box Your Ears

Sicilian Circle

- A1. Two side steps to the right; forward a double. Two side steps to the left to face the next couple; circle four to the left half way.
- A2. Two side steps to the left; forward a double. Two side steps to the right; circle to the right half way with original opposite couple to return to starting position - keep hold.
- B1. Balance in and out and men pass the left hand lady (opposite) across into partner's place. Back to back with that dancer.
- A3. Men left elbow turn once and a half. Swing partner and finish facing the next couple.

This is called The Pugilist because in A1 and A2 the dancers are boxing.

Another easier dance using the boxing movement is How Do You Do, which uses the same tune and is suitable for less experienced dancers.
